

Submitter: Gregory Hickey

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB854

Oh my God! You mean a government agency is actual going to do something other than bury their collective heads in sand regarding Climate Change? On behalf of the people of Oregon, thank you. Anyone opposing this bill is in the dark ages on climate change. A family member in the Defense Intelligence Agency has advised climate concern is a big concern. At least this bill shows some forward thinking.
