

Submitter: L Ross

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

To: Honorable Members of the Committee

I urge you to support SB 85. It is a good idea to have the Oregon Department of Agriculture study confined animal feeding operations in our great state. Factory farms, another name for animal confinement operations, are a terrible way to treat animals who cannot speak for themselves. Take just a few minutes to pause and reflect on what it must be like for these loving animals who are treated so inhumanely, then slaughtered. And factory farming adds a huge amount of air and water pollution and is responsible for more global warming than fossil fuels! We can do better. Please do the right thing. Think about what confinement really means. Then vote your conscience. Please vote YEA. Thank you.
