

Submitter: Loretta Johnson

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

This Bill is wrong and is not sustainable for our families if they are to grow up health. Beef is one of Oregon's top agricultural commodities. Our producers and feedlots comply with state laws, are stewards of our land, our rivers, and our environment. This is an unfair and unnecessary burden on our industry.

We oppose this Bill.

Russell & Loretta Johnson
