

Submitter:                      brenda sisson

On Behalf Of:

Committee:                    Senate Committee On Education

Measure:                      SB854

SB 854 is not appropriate education material for children of elementary age. Pushing this sort of subject is closer to undocunation rather than substantial learning such as "reading, writing & arithmetic".

I wholly oppose children having to worry of such events they can do nothing about. Let them learn to be children.

THankyou,

Brenda Sisson
