

Submitter: sue McKenzie

On Behalf Of:

Committee: Joint Committee On Semiconductors

Measure: SB4

I would like to have Wilsonville withdrawn from the lands to be considered for a Chip plant. Remove Wilsonville from Section 10 of SB4.

Many reasons for this- the first that comes to mind is traffic issues. So many traffic problems in the area on I 5 etc. We need less not more development in this area. Traffic congestion is such a problem. This land is part of the Rural Reserve. This land needs to be protected not developed. No adequate sewer, water, stormwater, transportation. for starters.
