

Submitter: Julian Pscheid

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Dear Senators,

I am concerned that confined animal feeding operations only benefit a few while having a tremendous costs to other stakeholders in our state. I'm particular, I am concerned about the impact on small and independent farmers who are displaced by animal products from CAFOs, as well as the tremendous environmental impact on the surrounding areas as well as the low standards of animal welfare. Please consider this bill to further evaluate the impacts of CAFOs and potential regulation.

Thank you,  
Julian Pscheid
