

Submitter: Mark DeCoursey

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB854

I strongly oppose SB854. We need our children to receive an education that goes back to focusing on the basics of reading, writing, math, civics, first aid, shop, and scientific thinking. If they can read, they can study the fringe subjects and politics on their own--as did older generations. The schools should equip the children to be self-actualized citizens, not robots. Thank you.
