Committee: Senate Committee On Natural Resources

Measure: SB85

Dear legislators, I support a factory farm moratorium in Oregon. I am a Registered Dietitian and a certified Diabetes Educator at a small clinic in Portland. These large factory farms are harmful for the health of not only environments, but also individuals. Their large use of antibiotics can lead to the breeding of unhealthy microorganisms, but the food which comes from them is often harmful for individual's health as well.

I urge you to vote for SB85 in the 2023 year. Thank you.
