

Submitter: Chad Kernutt  
On Behalf Of: We The People  
Committee: Senate Committee On Energy and Environment  
Measure: SB803

Dear Lawmakers,

I urge you to vote NO on SB-803. Not only will this bill be attacking people and farmers who use diesel in their personal and business rigs, but all of us consumers will pay for it when the prices and added costs get passed onto us through foods and other goods. And they WILL be passed along to us all. Stop trying to take money out of the pockets of blue collar families and abandon all this insanity in pursuit of green environmental justice. We don't want your foolish progressive utopia and if you want it so bad why don't you stick up to China and you can move to Germany where their ready established utopia that you are seeking to make is working out so well for them after dumping natural gas and petroleum. Leave our current energy sector and energy sources alone and stop pursuing insane policies that jack up the costs on goods across the board. We don't want it!! Vote NO on SB-803. Thank you.

Sincerely,

Chad Kernutt
