

Lindsay Ranch LLC,
Lexington OR 97839

To the hearing on SB 85

Lindsay Ranch has a CAFFO for up to 5,000 head and we have been operating for many years. We have worked with Oregon CAFFO representatives also for many years and can testify to their thorough and diligent efforts in being sure we are complying with any and all current rules for the safety of groundwater and manure removal procedures.

We are located in a rural area with specific soil profile and rainfall amounts that make decisions for our situation different from other locations which are most likely also unique to themselves.

We feel current procedure are adequate make determinations without any moratorium necessary.

Farmers and feeders are vital to putting food on the table of Oregonians at the least price.

Local hearings have always been held to determine the will of the neighboring residents to be sure that their concerns are answered before any new changes are made to CAFFO permits.

Agriculture is the first step in putting food on the table for Oregonians and also are in the position of not being able to pass on additional costs of operation as our prices are set by market forces.

Please to not hamper Agriculture further. Oregon CAT tax is doing that already.

We stand in Opposition to SB 85.

Lindsay Ranch,
Larry and Corrine Lindsay
Joseph Lindsay
