

Submitter: Janice Dysinger

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Honorable Chair Golden and Vice Chair Girod and members of the committee,
I OPPOSE SB85.

Farmers know what their animals need and should be given latitude to determine what is best for them. I have a lot of predators including cougar, bobcat, coyotes, hawks, owls, racoons, and neighbors' dogs that would like to eat my chickens. I need to keep my animals protected. They have very adequate habitat inside their large pen, that I am able to move round. When I had a cow, at times when it was in season, I had to keep it in a pen also for its protection, or it would try to get out of the pasture and be on the road which was dangerous.

Please leave the farmers alone.

Thank you!

Janice Dysinger
