

Submitter: Joseph Neron  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB891

I respectfully request that you consider passing this common sense legislation to update the language of the death with dignity law.

Medical fields have advanced since the bill was first passed and the word "physician" can be interpreted as only an MD or DO but maybe not an NP, PA, or other qualified and ethical providers.

Removing the residency requirement for this important bill is a show of mercy and I applaud the change. The sky did not fall when the bill was first passed and removing the residency requirement will be no different.

Please vote in favor of this bill.

Thank you!

Joseph Neron
