

Submitter: Janet Schultz

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

I have a supporter of Oregon's farmers since 1995 when I moved here. I buy the bulk of my produce at the Farmers Market at PSU and belong to a CSA. I have personally become friends with several of the farmers and know how hard they work and how much they care for their farms. They make Oregon better and beautiful. We also support some restaurants that purchase their ingredients from some of the farmers we know. Keep big Agra out they are poisonous.
