

Submitter: Karen Blaha

On Behalf Of:

Committee: House Committee On Education

Measure: HB3068

If we are sincere about providing educational opportunities for all Oregon students, HB 3068 goes a long way to provide that opportunity. It helps to tailor our education system to a broad but segmented student body with a variety of needs. It also addresses workforce needs expressed by just about every sector of our economy. I support the Committee's passage of HB 3068.
