Committee: Senate Committee On Natural Resources

Measure: SB85

I oppose SB 85. I watched the testimonies opposing this bill and echo everything that was said. You have waged war on the Agricultural community by attempting to pass such garbage and you Senator Golden are part of the problem not the solution by using your influence to get this bill and others like it, pushed through.

It was our forefathers that built this state with blood sweat and tears. These ranches and farms have been here for centuries and look the same now as they did then. The false narrative, climate cult ideology does not fly. We know this is B.S. and will not allow you to promote the "Big Lie or the Great Reset with our hard earned money. This bill is a slap in the face to those who provide the REVENUE that you appear to be attacking.

**THIS IS A CLEAR AND PRESENT DANGER TO OUR CONSTITUTION** and is a violation of the oath you took. This and other bills like it need to be shoved right back where they came from and never see the light of day again.
