

Submitter: Tim Hollister
On Behalf Of: Myself
Committee: Senate Committee On Energy and Environment
Measure: SB803

How DARE YOU! control our way of life. Control and dictate our farmers to bow down to unnecessary limitations. Science SAYS NOT A F**ing substantial supporting the END (now just 6 years according to GRETA) to humanity in 10 years due to warming climate CHANGED RECENTLY to: Climate Change (and appropriately for the global control DAVOS). There is NO SCIENCE THAT SAYS OR PROVES the humans are the cause of the fairy tale presented by progressives who want to push down and rule forever. Oregon legislators are being told what to do according to outsiders and if these types of bills being pushed don't start involving discussions and COMPLETE research resulting in ALL CITIZENS to VOTE ON then expect decentralized embedded agents to destroy our freedoms. I SAY NO this bill makes no sense and is unnecessary!
