

Submitter: Allen Hallmark
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB854

Dear Senate Committee on Education members,

This bill is so important to our children's future because of the massive threat to the Earth and all that live on it posed by climate change. It is imperative that all Oregon school children learn about climate change, why it is happening, and how the damage it is currently doing and will do can be ameliorated. Please pass this bill and work to see that it gets to the governor's desk.

Thank you!
Allen Hallmark
Medford, OR
