

Submitter: Jessie Andersen

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB551

As the mother of a school-aged child I strongly support this bill. Information is power, and if we can provide more information to families that helps keep our children safe, why wouldn't we? I see no negative to this passing. Let's make provide this information, and then leave it to the individual to decide what to do with that information. Please pass this bill.
