

Submitter: Mary Nikas

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB854

Dear members of the committee:

I can not speak to how important this legislation is in informing our students to the impact of climate disruption, and the need for climate remediation. We cannot put our heads in the sand and hope the planet fixes itself. Our children's future is at stake and it is only fair that we teach them the dangers of ignoring the warnings that the planet is giving us today. I urge you to vote YES on SB 854!
