

Submitter: Kellie Hayes

On Behalf Of:

Committee: Senate Committee On Human Services

Measure: SB820

Children with mental health disabilities deserve access to developmental disability supports the same as any other disability. And ALL children with disabilities deserve to have full funding of those supports, not just broken promises. Without fully funding these services, you leave children no better off than if these services were never there to begin with.

I ask that you please pass SB 820 and all bills that allow children to fully access the supports they need to survive and thrive.
