

Submitter: Jacqueline Zebrowski

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2455

My name is Jacqueline Zebrowski and I am a LMFT in Oregon. I have a private practice in Portland. I am writing in support to HB2455.

Counselors deserve to know what is expected in audits so they are not blindsided by insurance companies

unrealistic expectations and punitive practices. Clear limits and expectations about audits will help reduce providers' fears about accepting insurance. This will help increase access to care in our state as more providers will likely be willing to accept insurance. Thank you."
