

Submitter: Kelsi Conrad

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

I strongly oppose this Bill. I was raised vegan. I understand now as an adult the importance of a health diet which includes meat, eggs, and milk.

This Bill is being supported by folks that have never raised a farm animal in their life and have no idea what it is really like.

Please trust the farmers and cattle men and women in their testimonies opposing this horrible Bill. I am grateful for the harding working people that provide us with the food we need to survive. As a person who knows what is to live without proper nutrition I am asking for your help in Opposing SB 85.

Sincerely,

Kelsi Conrad
