

Submitter: jeffrey Amundson

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3248

HB 3248 I support this Bill ... and feel it could help several problems .being able to come into a community for food ...fuel ... lodging .the parking areas for the sand Dunes are so full on most weekends.... if you could stage in a community near that area it will help that more folks can enjoy the area . this is true for all areas in the state with forest roads near small towns across the state ... with proper lighting.. turn signals and registration and tires street legally allowed .education course and special license for street use ...this could be a safe and huge tourism gain tor areas that are close to forest roads and offroad areas.. this is working in many other states please consider to bring this to our great state of Oregon as well .

Thank you Jeff and Theresa Amundson...
