

Submitter: Christine Edwards

On Behalf
Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure: HB2904

As a person who works in the animal research field, I can attest to the care we give to the animals daily. We also currently have a reporting system in place. The information that is reported is available so if requested. Shouldn't it be the responsibility of this additional person who needs this information to request it from the organizations we currently report to?
