Measure: HB3198

Reading is the gateway to learning and success. The importance of children getting the support they need to become competent readers cannot be overstated. There are the obvious reasons, when people read, they are exposed to new ideas and different ways of thinking. This helps them to critically evaluate information and make better decisions. If they move past reading to learn, and reach reading because they enjoy it, they gain unlimited access to, well, everything. Please throw all of your support behind House Bill 3198--Oregon kids' futures depend on it.
