

Submitter: Carol Rudebeck

On Behalf Of:

Committee: House Committee On Education

Measure: HB3198

All children should have access to proven methods of learning to read. In these days of excess in so many areas of life it's inexcusable for schools to not have the staff and materials needed to teach children this life changing skill. I implore you to do the right thing and fund this appropriately. It is your responsibility as our elected officials to make a difference! Please, just do it! Thank you.
