Committee: House Committee On Rules

Measure: HB2004

we have 2 party system in practice, in democracy we need people's opinion reflect their true intent with voting, as we can not choose each candidate for each issue at hand, we need to choose best candidate that can address people's choice. In ranked choice voting We don't have to chose a candidate based on one issue just because he is from that specific party. Ranked choice will give diversity of opinions, not just party opinion on subject, you can deviate from party position.

Thank you

Hope you can vote on this to be approved and update our Democracy and work as intended by founders.
