

Submitter: Janice Keller

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Please end CORPORATE cattle FARMS IN OREGON. The cows NEVER see the light of day and stand 24/7, even when not being milked. Check out their manufactured feed too. They never graze on real grass outside in the sun or clean air. INHUMANE! MASSIVE POLLUTERS of air and water! Just drive by and smell for yourself! EPA needs to check ground water around these confined corporate animal farms for pond liner leaks!!!
