

Submitter: Sally Jaynes

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB854

I oppose SB854. We need to teach our children to read and understand what they are reading, we need our children to learn basic math and understand it. We need to teach our children to write. We are working with Kindergarten -12th grade here. The state of Oregon's Report card ALEC Rank is 46th in the country, overall grad D+. Let's equip our children in this age group to think for themselves and be confident to go out into this world and achieve their goals. How about develop written plan establishing how to TEACH our children to be an Entrepreneur and run their own business.

I OPPOSE SB854
