

Submitter: Deanna M Cintas
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3214

Not only are animals used for entertainment often neglected and not offered basic needs such a food, water, shelter, and time to stretch their legs, but they are also often mistreated, forced to do things they don't really want to do. Using wild or exotic animals in traveling acts is outdated, unnecessary, cruel, and anti-conservation so I fully support this bill.
