

Submitter: Nathanael Swan

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB854

Howdy. I am a father to 5 children. I am adamantly against this climate change instructional program. This is not agreed upon by all people. The science is not settled. This is complete propaganda. As the world cools and the climate alarmists can no longer use the term "Global Warming," they are now using "Climate Change" to keep pushing their fraud. If this was actually real and the oceans are going to rise, then how come banks will loan on property that will be under water in a few years?! They wouldn't because even the banks know this is BS. Stop acting like we are idiots. How about you let the parents vote?!
