

Submitter: K L

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB936

Please support this Senate Bill to provide affordable housing for low income residents.

I am a direct recipient of a Habitat for Humanity home that only requires no more than 30% of my income.

I wish for others to have their basic need for housing to be covered and not be overbearing due to income and rising housing cost, so please vote yes on this bill.

Thank you for your service to Oregonians.
