

Submitter: Cody Smith
On Behalf Of: I support being able to ride all-terrain vehicles
Committee: Joint Committee On Transportation
Measure: HB3248

I support being able to ride all-terrain vehicles on roads except on interstates. With them already having to be registered and due to the prices of fuel, this would help many people out with saving money on fuel which having gas guzzling vehicles. With being able to ride all-terrain vehicles on the roads they would be registered and insured as any vehicle would be.
