

To whom it may concern,

I and my family and friends stand in opposition of any implementation of this non-science-based climate legislation which promotes these changes to our education system in bill SB 854 "Climate Education" Bill. The bill is inherently bias, uses unfounded science and fails to take into account the growing number climate scientists that have penned papers and made press releases against the theory of climate change, <https://www.aei.org/carpe-diem/there-is-no-climate-emergency-say-500-experts-in-letter-to-the-united-nations/> and <https://friendsofscience.org/index.php?id=1> SB 854 promotes points of views that are inherently racist in the forms of equity and equality. extreme State overreach and indoctrination of children previously called CRT..

Concerned parent of 4, grandparent of 16 grandchildren,
