

Submitter: Evan Ludwick

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3248

Good morning, I am in support of this bill to pass. I have been involved in some form of power sports since I was a child. It is a great way for the community to come together. It is also a great for local community's to have tourists spend money and help their economies out. Growing the sport is great for everyone. Keeping them off interstates is a good idea, I think it's perfect for them on roads and non interstate highways.
