

Submitter: Derek Becker
On Behalf Of:
Committee: House Committee On Rules
Measure: HB2004

Members of the Committee,

I strongly oppose HB 2004. We have seen how ranked choice voting has worked, or not worked, in other States. First it can take weeks to determine a winner, next the candidate with the most votes on the first round will not win unless he/she has 50% +1. If no candidate has more than 50% then the votes are redistributed????? How is this fair. The democrats thought it was fair that Governor Kotek won with less than 50% of the vote. What would have happened if another candidate won after the votes were "redistributed"? In its entirety, this is a very bad idea and designed to be rigged so that only one party's candidate can win.

Vote no on this abomination.

Respectfully
