

Submitter: Josh Diamond

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3213

Oregon's legislature should pass this legislation, which is compassionate towards bunnies, mice, and others trapped in the cosmetics industry. Ten states have passed some form of this legislation, as have many countries. We have no need to torture innocent animals for makeup when we have much better alternatives like donated human skin from plastic surgery and computer models.

Pass 3213!
