

Submitter: Marianne Bickett  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3213

We live in an age where information is widely available that lists safe ingredients to cosmetics, etc. Testing on animals is an outdated, archaic and horribly inhumane method of ensuring a product's safety. Please make Oregon one of several states that demonstrates a higher consciousness and compassion for all living beings. Unnecessary suffering is beneath our high standards. Let's join the others to make a clear statement that cruelty to animals will not be tolerated and Oregon will not allow products that employ testing on animals in our great state. What do we wish to teach our children? This practice is not OK and I thank you for supporting HB 3213!!!
