

Submitter: Tim Murphy

On Behalf Of: HB 3009

Committee: House Committee On Early Childhood and Human Services

Measure: HB3009

As CEO of Bridgeway Recovery Services, a mental health and addictions treatment clinic, in Salem I can state clearly we have a crisis in Oregon when it comes to supporting children and adolescents struggling with symptoms of mental illness. Without medically necessary treatment this kids will suffer well into adulthood. I strongly urge your support of this bill.

Tim Murphy
