

Submitter: Peter Greenberg

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3418

I support the bill , adding more funds and extending the time period. More than half of my customers are low to moderate income and Low Income Service Providers. The bill has enabled organizations and homeowners who wouldn't be able to afford solar to now afford it. I have installed solar systems for Boys and Girls Clubs, a homeless shelter, 5 non profits that work with folks with various handicaps to afford solar. Along with that are dozens of low to moderate income home owners that I have installed for. One can see one of our systems right next to I-5 in Salem on the Garten Services building.

Many thanks

Peter Greenberg
