Chair Golden and members of the committee.

I am Christina Eastman 3rd of 5 generations living on our family farms. Mother 86 with COPD. My late father Burl Eastman was Norpac grower of the year in 2003. I farmed with family for 30 years! Row crops, wheat and grass seed. Our farms now butt up to North Santiam River, river has moved 1 mile SW & has taken 40 acres of our rich farm land with it. A proposed 3.5 M Chicken OP would be adjacent to our farms and in the path of the river that only has 400 yards to go! ODA does NOT! Require concrete floors, and water in the winter rises to the surface, it will suck all contaminates into

ground water. Leach into our wells,
poisoning our drinking water.

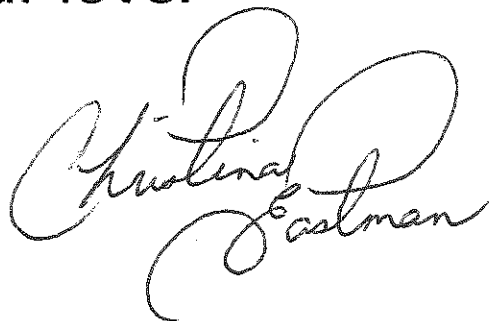

Ditches already overflow, they cannot take
millions of gallons of rain water coming
from A dozen 60 X 650 ft. Machine sheds
Totaling 468,000 Sq. ft. of roof tops.

Summertime we Do Not have millions of
gallons of water they require to operate.
Unless we Amend our Antiquated farm laws
these TOXIC facilities CAN and Will be put
by our creeks, rivers, schools, community's
Taking up precious Class A Farm ground. We
can NEVER get back.

Let us learn! From the mistakes! Of other
states! That Allowed them in! ~~them in!~~ & live
to regret it!

Love your state, state your love.

Keep Oregon Pristine.

A handwritten signature in cursive script that reads "Christina Eastman". The signature is written in black ink and is positioned in the bottom right corner of the page.
