

Submitter: Jordan Ruggles

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3214

Please ban animals tortured for entertainment. There are no “good” circuses when they’re using animals. Even bred in captivity, wild animals deserve better than constant travel, nightly performances, and training with whips, bull hooks, and starvation.

Many of the people voting against this bill thought they were voting against the animal cruelty of circuses and there is no way to correct their vote.

It’s time for circuses to evolve like cirque du soleil and ban the abuse of animals for asinine tricks.
