

Submitter: John Thornton

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Dear Senate Committee on Natural Resources:

The passage of SB85-1 is urgent and imperative. The Committee on Natural Resources, on behalf of the entire Senate and Legislature and public, needs time to acquire all of the science-based evidence of the immediate and long-term effects of the placement of an industry in an area long reserved for small and medium-size farms. The former owner of the land sold to Foster Farms had the right to sell the land but not the unbounded, common water. I commend the Committee for taking time and requiring due diligence.

+John S. Thornton, 41235 Oupor Dr. Scio
