

Submitter: Joanne Cornelius  
On Behalf Of: our Pacific Ocean occupants  
Committee: Joint Committee On Transportation  
Measure: HB3382

We seem to have to keep yelling at the top of our lungs trying to protect our beloved state and it's health. This bill is an unbelievable attempt to bypass Oregon's SB100 which so many of us have worked so very hard the past 50 years to protect our state land and waters from those who prefer to avoid health and safety and protection of the areas that help to keep our ocean waters clean. There is never an end to those rushing to avoid our laws and exploit this state. I'm so ashamed of those who propose this idea. Why can't our elected officials see what is happening to the world around us and behave accordingly. It feels like you are trying your best to further the degradation of our state.
