

Submitter: Lyn Sanford
On Behalf Of:
Committee: House Committee On Rules
Measure: HB2004

The passage of this bill would further erode CHOICE in our candidates and elections. Elections should be both free and fair; they should allow any candidate who has gone through the registration process to run for office without any ranking. This bill would take the choice of the electorate away and favor those in power. In short, it would manipulate our choices of candidates and shut some candidates out of the process. The bill needs to go down in flames.
