

Submitter: Cody Sibel

On Behalf Of: All naturopathic doctors

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2555

No question regarding NDs and pay parity. Their training is far superior to other professions that currently have pay parity. Further, more people than ever are seeking naturopathic care as an alternative to a failing healthcare system. They should be compensated equally for doing the same, if not better work than those also serving in the primary care realm.
