Measure: HB2004

I do not support HB2004 or the upcoming bill SB506. No Ranked-Choice Voting System in Oregon.

In places that have already implemented ranked choice voting, the outcomes of the elections have contradicted the will of the voters. RCV is highly expensive, complex, confusing, and would be difficult or impossible to implement without machines. The Oregon Attorney General admitted the electronic systems are hackable, and our elections officials have already blocked transparency - we must remove machines from elections and certainly shouldn't add any machines or software.
