Measure: HB2665

I believe health care workers get the bare minimum when it comes to wages. We bust our asses at work 24/7 sometimes pulling doubles from mid day to graveyard. All cause we have no one to come in from being short staffed. We take care of hundreds of different people in one facility basically doing our day to day life daily needs for another person because if we don't who won't? We're short staffed, caring for your mom, dad, grandpa, sister, brother, etc. and are expected to accept 18\$ an hour. This day and age 18\$ an hour isn't even a livable wage.
