

Submitter: Susan Powell

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3152

To whom it may concern,

We a way beyond taking this kind of restriction on natural gas. We not have the infrastruictiure as yet to support this overreaching impediment to this affordable, clean energy. Many home owners and apartment dwellers depend on this resource to heat their homes and cook their food. Just look what happens when we loose our electricity due to weather or an accident which interrupts a power line in the winter! No heat or way to cook your food. I depend on my gas fireplace an gas range in those emergency times.
