

Submitter: Tessa Beil

On Behalf Of:

Committee: Joint Committee On Semiconductors

Measure: SB4

I live in Argay Terrace with my husband and 3 year old son. There are many families in this neighborhood who are impacted already by I84 and the train. This is not an industrial area. This is an area with multiple schools, parks and family homes. It is not fair to add the effects of pollution onto kids just trying to go to school and enjoy parks. Using this space to provide jobs for the community would be more beneficial and safer for the community.
